Primary Examiner

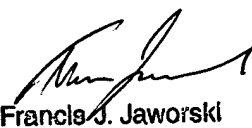

The following is an examiner's statement of reasons for allowance: Claims 10 – 12 were interpreted to pertain to product-by-process claims written in dependent form where the distinctive structural features of the particular matching layer configuration are difficult to define apart from the process by which it is made, and as such only the distinctive implied structural features are limiting on the product, hence in relation to claim 10 the particular structure of one component distributed within the other component in the form of filled openings in a sheet, in relation to claim 11 the first component is further limited to the recited materials and similarly in claim 12. Claims 13 and 14 are understood to structurally express that the first and second components of the layer are present as a mixture, or with an additional binder.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Jaworski Francis J. at telephone number 703-308-3061.
